# Power BI: Data Modeling Training Curriculum

Overview

In this 5-hour Power BI workshop, you'll learn how to effectively build relationships between multiple tables within the Power BI data model. This hands-on training will guide you through connecting diverse data sources in a way that allows them to seamlessly interact—creating a cohesive, integrated dashboard experience. By the end of the session, you'll understand how to design a data model where all tables "communicate" with each other, enabling powerful, unified insights across your reports.
